Press Release

KWC BEVO - Harmony in form and function

Timeless elegance combined with precision and comfort

The KWC BEVO impresses with its clarity of design and clean lines. The slim silhouette, elegantly shaped spout, and unmistakable lever design are a testament to this. Premium materials and precise workmanship underscore the high quality and durability.

The KWC BEVO is now available in matt black, brushed steel, brushed gold, brushed copper, and brushed graphite. Available from February 2026.

Effortless weightlessness

The sophisticated design of the lever on the basalt-gray cap of the KWC BEVO creates a floating effect.

The perfect complement

Combined with the color-coordinated PushOpen pop-up valve, the KWC BEVO is suitable for basins with or without an overflow.

Concealed Efficiency

Discreetly hidden, the aerator ensures a soft, splash-free jet of water. At the same time, it reduces water and energy costs and can be replaced and cleaned without the need for special tools.

KWC Group

As an international premium manufacturer of faucets and fittings, we are the epitome of Swiss quality, iconic design, and sophisticated functionality for product solutions in bathrooms, kitchens, and catering environments. Whether in the private or (semi-)public sphere – every single one of our products reflects almost 150 years of experience, expertise, and outstanding craftsmanship. From the heart of Switzerland, we strive to sustainably enrich people's quality of life.
