Press Release

KWC ZOE ClickControl - smart comfort

KWC ZOE ClickControl with smart functionality for greater convenience in the kitchen.

Regardless of the direction in which the spout is turned, the KWC ZOE ClickControl remains a masterpiece. A highly functional icon for the exposed kitchen counter with outstanding performance. The innovative ClickControl technology combines formal clarity with smarter functionality: Water quantity and additional functions can be conveniently programmed and accessed at the touch of a button.

Iconic design

The KWC ZOE ClickControl is an extraordinary sculpture from any angle.

Understated and functional

The pull-out spray head offers two jet types and is seamlessly integrated into the spout.

Concealed options

With a click of the lever, water quantities can be stored and retrieved or, thanks to the reinforced water jet, containers can be filled more quickly. Manual operation remains as before.

One smart cookie

The LED light in the pull-out spray head not only draws attention to the faucet and basin, it also helps when washing food and pots. The KWC ZOE touch light PRO – the design with electronic operation – is also now available in

Technology ClickControl

The water quantity and the temperature and strength of the water jet are individually programmable and retrievable with just a few clicks. ClickControl augments the manual control with smart functions, transforming the KWC ZOE into a smart kitchen aid.

One inward click: The faucet precisely dispenses the last programmed amount of water – one click for cold water, double-click for hot water. Ideal for repetitive processes.

One outward click: The existing water jet is intensified – ideal for quickly filling containers.

KWC Group

As an international premium manufacturer of faucets and fittings, we are the epitome of Swiss quality, iconic design, and sophisticated functionality for product solutions in bathrooms, kitchens, and catering environments. Whether in the private or (semi-)public sphere – every single one of our products reflects almost 150 years of experience, expertise, and outstanding craftsmanship. From the heart of Switzerland, we strive to sustainably enrich people's quality of life.
