KWC
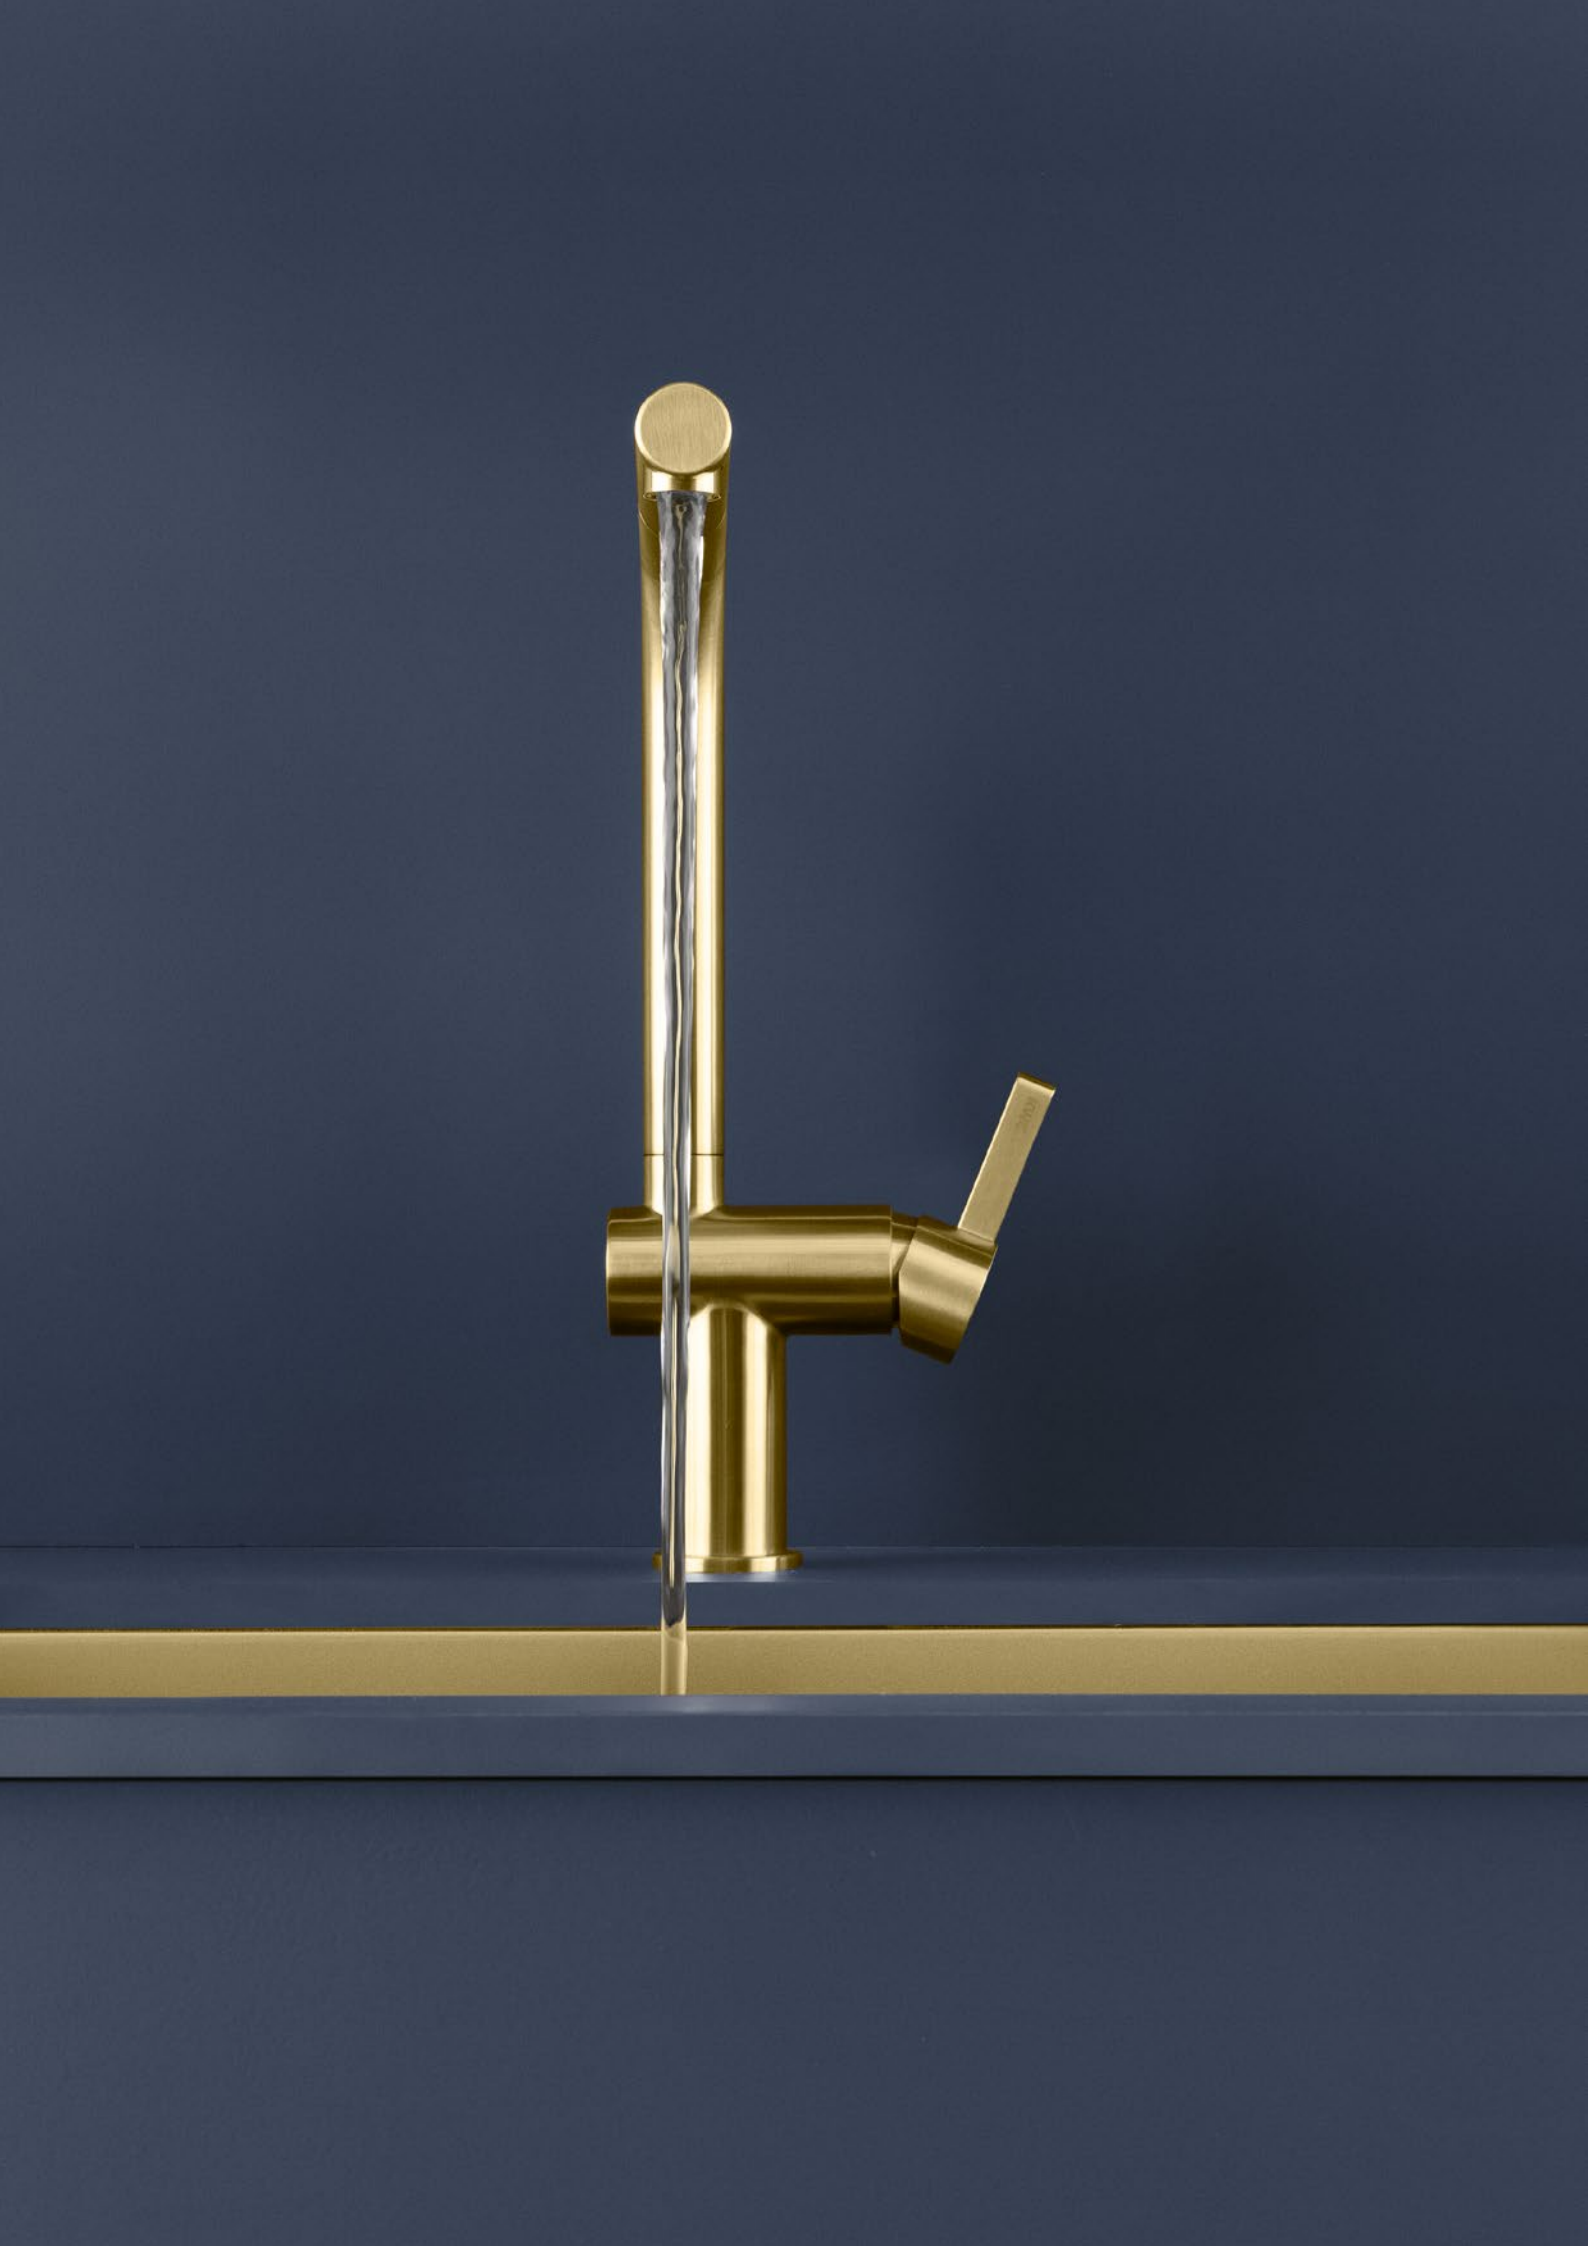
in the kitchen

THE BOOK OF
PASTA



At home in the kitchen

With a passion for detail, our kitchen taps ensure perfect harmony in the kitchen – for all the senses. The design is always elegant, the functionality ingenious – the water quality always in the foreground, filtered or unfiltered. Safe and intuitive operation, including touch-free with just a wave of your hand. The precise workmanship ensures long-lasting enjoyment of the tap. The materials and stainless steel are of the highest quality, enable easy cleaning and maximum hygiene. Premium quality for ambitious amateur cooks and the whole family.

KWC BEVO E
Lightness in form and function

The KWC BEVO E fascinates with its slim silhouette and elegant transitions and is made of hygienic stainless steel. The characteristic asymmetrical spout is an striking design element. The dual-shell design of the shower models provides extra safety - it protects against burns. No matter how hot the water flows, the exterior of the KWC BEVO E showerhead remains cool to the touch.

Kitchen

Lever mixer
– Pull-out aerator up to 600 mm
– Swivel spout 150°
– EasyLock

KWC

EasyLock

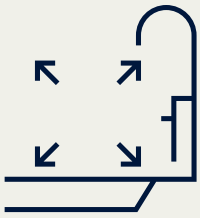
A spray that is easy to use and automatically snaps into place: EasyLock is equipped with special positioning pins that ensure that the pull-out spray is always in the right position.

SwivelStop

Stops the faucet from moving too far and prevents water damage: SwivelStop allows the swivel range to be adjusted from 360° to 120° or 150° in just a few steps, ensuring that the water only flows into the sink.

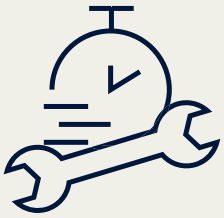
TouchProtect

Safe to use: An insulated hot water guidance system with a “double skin” principle means the body of the faucet or the pull-out spray can become warm but never hot. In this way, TouchProtect intelligently prevents scalding.



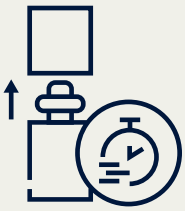
OptimalSpace

Practical yet elegant ergonomic design: OptimalSpace features long, tall spouts that provide ample space for washing and working.



QuickInstallation

Hassle-free positioning and fastening of the threaded connection for quick and easy installation: The locking nut is screwed into place by hand to hold the faucet in position using QuickInstallation, before it is fixed in place via the two locking screws.



QuickConnect

Easy installation and more safety in the kitchen: With QuickConnect, there is no need to screw on the spray head hose, which means there is also no risk of damaging the seal and causing water damage.

Limited warranty
